

dermalogica[®] body mapping[®]

Body Mapping is a thorough diagnosis of the skin and an extension of Dermalogica's unique Face Mapping analysis. The body is divided into 14 zones, front and back, to collect two kinds of information: body considerations (eg fluid retention) and skin considerations (eg keratosis pilaris), to tailor the body treatment to the client's individual needs.

15 min Body Mapping analysis is FREE when redeemed against any Dermalogica[®] body treatment.

15 min Body Mapping analysis costs £10 which can be redeemed within the salon against any Dermalogica[®] skin care products.

dermalogica® face mapping®

The Dermalogica® range is not based on old-fashioned skin typing, but on a unique system of analysis, allowing the skin therapist to design a personalised treatment for each client. Combining the latest in skin analysis techniques with the proven results of Chinese Diagnosis, the Face Mapping skin analysis procedure provides the therapist with an objective view of the skin's condition, as well as an indication of the underlying health issues that may be affecting it. Rather than analysing the skin in general terms, Face Mapping skin analysis divides the face into fourteen distinct zones, assessing individual problems and needs. Use of this inch-by-inch methodical analysis of the facial landscape allows the skin therapist to prescribe treatment and homecare needs accurately.

15 min Face Mapping skin analysis is FREE when redeemed against any Dermalogica® facial within the salon.

15 min Face Mapping skin analysis costs £10 which can be redeemed within the salon against any Dermalogica® skin care products.

Your Dermalogica® Face Treatment is customised at every step using Face Mapping analysis.

Your treatment is unique to you and varies on every visit.

Your therapist will personalise a skincare treatment to address your individual skin health requirements.

Dermalogica® Facials

Medibac Clearing Treatment - 60 minutes - £33
